## our vision our mission

---

We believe healthcare is first and foremost about quality of life. Medical treatments are more than just procedures, they restore health, comfort, confidence and happiness and improves life of millions of patients every year. Our vision is to pave the way of a more human-centered healthcare industry based on proactive lifetime care.

To remain at the top of their game and focus on what matters most, healthcare professionals trust integrated solutions that empower them and improve their practices on a daily basis. We provide comprehensive, intuitive workflow solutions that put technology at the service of people and help healthcare professionals restore patients' health effectively, efficiently, and economically.

A close-up, high-key portrait of a young woman with dark brown hair and brown eyes. She is smiling warmly at the camera, showing her teeth. Her skin is smooth and well-lit from the front.

AIS 5 standalone	W0900046

# EASY IS THE NEW SMART!

- ❖ Easy 2D diagnosis
- ❖ Easy patient positioning
- ❖ Easy user interface
- ❖ Easy installation
- ❖ Easy to use

**x-mind prime 2**

## RELY ON A COMPLETE SET OF PANORAMIC EXAMS

X-MIND® prime offers a full set of panoramic exams for both adult and child, tailored to meet all your clinical applications:

- Panoramic
- Examination of the temporomandibular joints
- Examination of the maxillary sinuses
- Half-panoramic
- Improved orthogonal panoramic
- Detailed frontal dentition
- Low-dose panoramic
- Bite-wing

## POSITION EASILY AND EFFICIENTLY YOUR PATIENT

Natural face-to-face positioning supported by alignment lasers for correct patient positioning.

X-MIND® prime is based on a fix & lift principle. Whether sitting or standing at any height, the telescopic columns can be directly adjusted using the control panel.

Its open space configuration suits all types of patients and is easily accessible for wheelchair users, thanks to its zero footprint design.

## SIMPLE CONTROL PANEL

The simplified control panel, smartly located below the chin support, provides a streamlined and precise patient positioning.

Benefit from an error-free patient positioning thanks to the automated chin rest support recognition.

## THE BRAND VERSION WITH CEPHALOMETRIC ARM

Easy, reliable and safe mobile sensor handling

### CEPHALOMETRIC RADIOGRAPHY

With the ACTEON® cephalometric solution entering the X-MIND® prime range, you can now extend the fields of application of the device to orthodontic analysis, improving diagnosis and treatment planning.

## 2 AVAILABLE CONFIGURATIONS:

- ❖ X-MIND® prime PAN CEPH
- ❖ X-MIND® prime PAN 3D CEPH

## X-MIND® prime Pan 2D

Orthopantomograph (OPG), 110V–240V, with one CCD Pan 2D sensor for panoramic imaging.

- 24 adult and child panoramic programs
- Innovative wall-mounted system
- Face-to-face positioning
- Lightest unit on the market
- Installation under an hour by one single technician

ACTEON® Imaging Suite (AIS) streamlines any clinical workflow from patient data management to images acquisition. AIS 2DApp with its clean interface simplifies the diagnostic phase and allows a better communication with the patient with its portable viewer and dedicated image filters. All Acteon imaging devices can be integrated in the same AIS environment. Installation and user e-manuals, 2 years standard warranty. Not included: light.

Class IIb medical devices (IMQ) - CE0051  
Manufacturer: de Götzen ACTEON® Group - Italy

2D Wall-mounted version 110–240V

**W1200001**

## X-MIND® prime Pan 2D CEPH

Orthopantomograph (OPG), 110-240V with single mobile CMOS sensor for panoramic and cephalometric imaging.

Lightweight and compact installation  
39 adult and child acquisition programs  
Accurate and reliable patient positioning  
Fast and easy installation

ACTEON® Imaging Suite (AIS) streamlines any clinical workflow from patient data management to images acquisition. AIS 2DApp with its clean interface simplifies the diagnostic phase and allows a better communication with the patient with its portable viewer and dedicated image filters. All Acteon imaging devices can be integrated in the same AIS environment. Installation and user e-manuals, 2 years standard warranty. Not included: light.

2D version Double sensor 110-240V

**W1200009**

**W1200009.DS**

## X-MIND® prime Pan 3D

Orthopantomograph (OPG), 110V–240V,  
with one CMOS sensor used for Pan and 3D.

- 54 adult and child 2D and 3D programs
- Delivered with AIS 3D app and powerful treatment planning tools
- 4 FOV : 50x50, 85x50, 85x93 and 120x100 mm
- Innovative wall-mounted system
- Face-to-face positioning
- Lightest unit on the market
- Installation under an hour by one single technician

ACTEON® Imaging Suite (AIS) Software, for visualization and analysis of 2D and 3D acquisitions and treatment planning. Includes five licenses for 3D app standard, the 3D viewer and implant planning application. Compatible with all 2D and 3D imaging products of the group. Installation and user e-manuals, 2 years standard warranty. Not included: Light.

Class IIb medical devices (IMQ) - CE0051  
Manufacturer: de Götzen ACTEON® Group - Italy

3D Wall-mounted version 110–240V + WS + Monitor

**W1200005**

## X-MIND® prime Pan 3D CEPH

Orthopantomograph (OPG), 110-240V equipped with a CMOS PAN/3D panel and a CMOS 2D CEPH sensor.

69 adult and child 2D PAN/CEPH and 3D programs  
Delivered with AIS 3D app and powerful treatment planning tools  
5 FOV : 50x50, 85x50, 85x93 and 120x100 mm  
Accurate and reliable patient positioning  
Fast and easy installation  
Software preinstalled.

ACTEON® Imaging Suite (AIS) Software, for visualization and analysis of 2D and 3D acquisitions and treatment planning. Includes five licenses for 3D app standard, the 3D viewer and implant planning application. Compatible with all 2D and 3D imaging products of the group. Installation and user e-manuals, 2 years standard warranty. Not included: Light.

# SMART SENSOR FOR EFFORTLESS PERFORMANCE

**sopix**  
plug-in

**sopix 2**  
plug-in

## SMART FLOW

Our mobile sensors adapt to all clinical cases, all morphologies and all software, to provide you and your patients greater comfort.

## SMART DOSE

The ACE® technology protects both the image and your patient from unnecessary exposure.

## AN EFFICIENT PROTECTION WITH A MINIMAL EXPOSURE TIME

The Automatic Control Exposure® technology analyses in real-time the amount of X-rays accumulated by the sensor.

Once the sensors receive the required radiation dose, it order to the X-mind® unity to limit the emission of X-rays. You take an optimal quality x-ray from the first time avoiding overexposure risk to both the image and the patient.

Thus, even with a too high set-up of your generator, the patient receives the minimum dose required to provide a high-quality image.

## SMART TECHNOLOGY

Our latest generation of digital sensors provide a sharp X-ray image for an easy reading of the different dental tissues.

## EXPERIENCE THE LATEST GENERATION OF DIGITAL SENSORS

The FIBER2PIXEL® technology is based on the use of wide spectrum optical microfibers, guaranteeing the clarity and the contrast of the images.

# sopix<sup>2</sup> plug-in

SOPIX® PLUG-IN size 1 with SOPIX® Plug-in dock

3.800,70 € S\_K60\_1000

SOPIX® PLUG-IN size 2 with SOPIX® Plug-in dock

5.088,20 € S\_K60\_1001

CMOS sensor with optic fiber of 1.5 million of pixels (size 1) or 2.21 millions of pixels (size 2), theoretical resolution of 25pl/mm, actual resolution > 18pl/mm, 0.70m cable. Includes ACE technology (Automatic Control Exposure).

with a sensor holder, 10 sensor sheaths, the ACTEON® Imaging Suite (AIS) software.

The sensor can be used with Sopix® Plug-in dock.

# ACTEON NEWS

N° 15248

Caring People. Improving Lives

2024

WARNING - Breaking news - WARNING

**Stop**  
using competitors' tips  
with ACTEON® devices

**Choose only the ACTEON® Original Tips to get the full performance of your ACTEON® ultrasonic device**

Only ACTEON® Original Tips can guarantee optimal performance and safety of use with our ultrasonic devices.

ACTEON®'s liability and warranty of parts and accessories is voided when damages occur due to the use of non ACTEON® Original Tips.

J02050 - V2 - 04/2024

Could seems financially interesting initially but more costly in the long term:

- 1- Tips need to be changed more often
- 2- Increased treatment time
- 3- Potential damage to the handpiece may require replacement

## Other packs & kits

### Essential pack

with a sterilization box, an autoclavable Piezotome® 2 handpiece with cord and an Essential II Kit and a Piezotome® autoclavable dynamometric wrench

2.260,20 € F87529

### Essential II kit

# SUPERIOR COMFORT AT YOUR FINGERTIPS

## The next generation of manual instrumentation

- Lightweight: 15g
- Unique "Soft Touch" grip
- Long lasting sharpness<sup>(1)</sup>
- 100% approved by practitioners<sup>(2)</sup>

## UNCONVENTIONALLY DURABLE AND SOLID

- High wear-resistance due to the stainless steel properties
- The metal is treated in accordance with the latest heating techniques

## ENHANCED COMFORT THE FINAL GOAL

- High sharpness means less force
- Less force means less muscle fatigue
- Less force means comfortable scaling

Manual instrumentation video

## TRUE ERGONOMICS

- 10mm: optimal handle diameter to reduce pinch force<sup>(3)</sup>
- 15g: ultra light to limit hand fatigue<sup>(3)</sup>

## UNIQUE COMFORT

- Flat areas for the fingers, to avoid localized pressure
- Intrinsic tactile sensation

## GENTLE AND CONFIDENT GRIP

- Effective «soft touch» non-slip surface
- Firm silicone with no spring effect for an accurate and controlled clinical gesture

## REVOLUTIONARY COMFORT AT YOUR FINGERTIPS

### 39 instruments

- Diagnostic
- Restoration
- Periodontics
- Endodontics
- Prophylaxis

(1) The effects of periodontal instrument handle on hand muscle load and pinch force, D. Rempel; D. Lee; K. Dawson; P. Loomer; JADA 143(10) - October 2012.

(2) Internal field evaluation on 20 practitioners from 8 different countries. 100% answered that Bliss handle was comfortable.  
(3) Rempel D, Lee D.L., Dawson K, Loomer P. The effects of periodontal curette handle weight and diameter on arm pain. JADA. 2012 Oct;143(10)

## Kits

Every consultation starts with these 3 instruments

One end of the handle is flat to facilitate percussive diagnostics, allowing to evaluate the sensitivity and the mobility of the tooth and the sensitivity of the gum.

### Diagnostic kit Bliss®

with an Easy Clip cassette, 1 EXP17-23,  
1 College tweezers 15cm satin finishing  
mirror handle SS + 1 PureReflect® mirror  
mirror handle CSS + 1 PureReflect® mirror

# MIRROR RANGE

.....

# PERFECT CLARITY, CRYSTAL-CLEAR VISION

## MOUTH MIRRORS – FROM DIAGNOSTIC TO TREATMENT, THE BENEFIT TO ALL DENTAL CLINICAL ACTS

- Visual examination is the first step to diagnostics
- 10 different sizes
  - From 0 to 6 to work in the mouth
  - From 7 to 10 to clinical studies, photography

## MICROMIRRORS – THE MICROSCOPIC PERFECTLY VISIBLE

- Make the access to the apex easier and appreciate the accurate vision of the pulp chamber.
- 4 different sizes

## PHOTOGRAPHIC MIRRORS – EFFECTIVE COMMUNICATION WITH PATIENTS

- Highlight the dental treatment and restoration to promote the practice. Allow to take pictures of clinical cases for books, publications and patient records.
- 8 different sizes for occlusal, vestibular and lingual areas.

**Our mirrors resist  
to more than  
100 autoclave cleaning  
cycles\***

Mirrors has to be  
replaced after  
**3 MONTHS**  
of daily use

## Front surface

Cross-sectional view

Image reflected directly on the surface  
of the glass, distortion-free  
**NO DOUBLE IMAGE**

## Back surface

Cross-sectional view of an aluminium mirror

Reflecting surface under the glass  
**DOUBLE IMAGE**

## The finition of the frame also matters

### Flat and ergonomic soldering

More  
comfortable  
for the patient  
while retracting  
the cheek

### Satinized finition

Prevent light  
reflection  
in the eyes  
Avoid eye fatigue

### Optimal crimping

The frame suits  
the mirror  
No sharp edges  
No blood and  
dirt retention

## ENHANCE YOUR IMPRESSION ACCURACY

**expasyl**

### A TRIPLE ACTION

#### 1 ASTRINGENT EFFECT

helps to completely dry the sulcus with no blood or fluids.

#### 2 OPEN THE SULCUS

effectively with no pain or damage to tissues thanks to the viscosity carefully calculated with our clinical expertise.

#### 3 PRESERVE EPITHELIAL ATTACHMENT\*

for a reduced risk of gingival recession and bone resorption.

\* Canula must not be inserted into the sulcus

### EXPASYL™ PASTE USED BY EXPERTS

97% of Expasyl™ paste users **would recommend** this product to a colleague\*

93% of Expasyl™ paste users say that **the sulcular opening obtained** with the product **is ideal for impression taking\***

94% of Expasyl™ paste users find that the **application is very easy\***

### WHY CHOOSE EXPASYL™ RETRACTION PASTE?

Compared to traditional cords, Expasyl™ paste preserves gingival tissues and epithelial attachment.<sup>(1)</sup>

Expasyl™ paste generates pressure 1.7 to 9.2 times greater than other retraction paste available on the market.<sup>(2)</sup>

## ENSURE COMPLETE SUCCESS OF YOUR PROSTHETIC RESTORATIONS

Dr Erwan BOULIC  
Dentist - France

Expasyl™ paste allows full access to emergence profile to guarantee the most natural finish

EASILY APPLIED  
20 SECONDS

WORKS IN  
1-2 MINUTES  
max

EASILY REMOVED  
with a gentle  
air/water spray

### hyca

Ready-to-use calcium hydroxide paste

#### Indications

Hycal™ is a calcium hydroxide paste indicated for application:

- Direct capping when pulp opened or after pulpotomy.
- Indirect capping for treatment of deep caries.
- Lining of cavities to prevent exposure to acid media when using cements
- Temporary filling of root-canals.

#### Properties

- Product ready to use.
- High pH (>12.5)
- Effective protection of the pulp.
- Formation of tertiary dentin.
- Radio-opaque.

#### HYCAL™

1 x 2ml syringe and 5 additional bended application cannulas

# sealite regular

Powder and liquid for permanent sealing cement for root canals

## Properties

Cement allows the tooth to remain functional.

Forms an easy-to-apply, tight (very low solubility and disintegration after setting, in compliance with ISO 6876:2012), radiopaque cement with a homogeneous consistency.

Must be used with gutta percha cones.

## Composition

- Sealite™ Regular powder: Diiodothymol - Zinc oxide - Radio-opacifier - Excipients
- Sealite™ Liquide: Eugenol - Excipients

### Sealite™ Regular kit

25g of Sealite™ Regular Powder<sup>(1)</sup>, 10ml of Sealite™ Liquide<sup>(1)</sup>,  
1 spoon<sup>(2)</sup>, 1 dropper<sup>(2)</sup>

**129,39 €** **266 264**

### Sealite™ Liquide<sup>(1)</sup>

10ml (refill)

**39,38 €** **266 267**

(1) Class IIa medical device (GMED) - CE 0459

(2) Class I medical device - CE

Manufacturer: PRODUITS DENTAIRES PIERRE ROLLAND ACTEON® Group - France

# eugenol pur

Liquid for zinc-oxide based cement

## Properties

The eugenol confronted with bivalent metallic ions (Zn<sup>2+</sup>) forms a chelate: chemopolymerization.

To be used with Cortisomol™ SP powder.

## Composition

Eugenol 100%

### Eugenol Pur

60ml bottle

**52,88 €** **234 110**

Class IIa medical device (GMed) - CE 0459 - Manufacturer: PRODUITS DENTAIRES PIERRE ROLLAND ACTEON® Group - France

# cimavit

Zinc oxide-based temporary filling cement

## Properties

- Ready-to-use (no mixing)
- Waterproof
- Very good adherence to dentine
- Immediate setting time in mouth
- Easy to remove (probe, excavator, ...)
- Pink colour for a good contrast

### Cimavit™

6 x 28g jars

**78,76 €**

**213 859**

Class IIa medical device (TUV Rheinland) - CE 0197 - Manufacturer: G-Pharma - France  
Distributed by: PRODUITS DENTAIRES PIERRE ROLLAND ACTEON® Group - France

# cimavit photo

Light-curing filling material for temporary restorations

## Indications

All types of temporary fillings, temporary protection in inlay and onlay techniques

## Properties

Ready-to-use material, does not stick to instruments, condensable, does not require a particular finishing of the cavity, ensures a hermetic seal (isolates the tooth from bacterial and thermal aggression).

In case of more than two weeks' stay in mouth, and in occlusal or marginal areas, reinforcement with composite is recommended.

Good aesthetic translucency. Its elastic consistency facilitates its removal in one bloc.

### Cimavit™ Photo

2 x 4g syringes

**68,64 €**

**213 830**

Class IIa medical device (MEDCERT) - CE 0482 - Manufacturer: MP Medical Product - Germany

# PROPHYLAXIS & PERIODONTICS

.....

# etik collagene

## Hemostatic surgical dressing

### Properties

Collagen is a fibrillar protein naturally present in all connective tissues.

Lyophilized collagen in cylindrical form displays hemostatic activity due to its adhesive power, liquid absorption and gelification properties.

The collagen cylinder moulds itself into the hemorrhagic surface where it adheres strongly upon mechanical compression, thus promoting the formation and maintenance of a platelet clot (coagulation).

The collagen cylinders are resorbable.

### Composition

Native, non-denatured, lyophilized bovine collagen (mainly type I collagen): 100%. This device contains tissues of animal origin under regulation (EU) no. 722/2012.

Dimensions: diameter ≈ 10mm, height ≈ 16mm

### Etik™ Collagene

25 unit-packaged sterile cylinders (in blister packs)

90,01 €      281 970

Class III medical device (GMED) - CE 0459 - Manufacturer: PRODUITS DENTAIRES PIERRE ROLLAND ACTEON® Group - France

# hemostasyl

## Hemostatic surgical dressing

### Indication

To be used in all cases of moderate bleeding occurring in routine dental practice (scaling, etc.)

### Properties

- Thixotropic properties
- Good adhesion to the gingival mucosa, without compression
- Presence of aluminum chloride which reinforces its mechanical haemostatic effect
- Placed directly in the mouth with the single-use angled cannula
- Easily located due to its color
- Easily removed by gentle water spray without resumption of bleeding
- Painless on a healthy periodontium
- Contact time: 2 minutes max.

### Hemostasyl™ kit

2 x 2g-syringes<sup>(1)</sup> + 40 cannulas<sup>(2)</sup>

88,89 €      246 200

### Hemostasyl™ seringues

(2) Class I medical device - CE - Manufacturer: PRODUITS DENTAIRES PIERRE ROLLAND ACTEON® Group - France

# sitsalicine

## Polishing teeth after scaling

### Properties

Silica is a mildly abrasive powder which gives the paste its polishing properties, eliminating the micro-roughness that is present after scaling, without damaging the enamel or gums. A flavouring compound gives its pleasant, refreshing taste.

Sitsalicine™  
60g tube

50,63 €      277 803

# HYGIENE

.....

**METALLIC TIPS****DID YOU KNOW?**

**It is impossible to clean correctly the inside of reusable tips due to the presence of biofilm.<sup>(1)</sup>**

- Not effective cleaning of reusable tips in the long-term.
- Hygiene maintenance takes time between two patients.

“

*With regard to cleaning and sterilization, disposable tips were found to be more acceptable in clinical use than metal tips.<sup>(1)</sup>*

(1) M.Inger, V.Bennani, M.Farella, F.Bennani, RD.Cannon. Efficacy of air/water syringe tip sterilization. Australian Dental Journal 2014; 59: 87-92 - R. Puttaiah et al. Rationale for using single-use disposable air/water syringe tips. Compendium. 1999;20(11):1056-1069

# riskontrol

Disposable tips

## YOUR DAILY ROUTINE

- Save time & money
- Ensure your clinical protection
- Protect your patient
- Meet your expectations for your different procedures
- Reach easily difficult-to-access areas
- Avoid risk of ingestion

## Adapters for air/water syringe

The Riskontrol® range includes different adapters able to equip about a large number of dental chairs.

The adapter is left permanently in place. You just need to change the tips between each patient.

The adapters are delivered with 1 protective cap and, depending on the types, with a replacement O-ring to ensure optimal functioning of your syringe.

Contact your area dealer to determine the correct adapter for your dental chair.
